The State Laboratory will consider requests for review in accordance with the provisions of Section 7 of the Code of Practice *Appointments to Positions in the Civil and Public Service* published by the Commission for Public Service Appointments (CPSA). When making a request for a review, the candidate must support their request by outlining the facts they believe show that the action taken or decision reached was wrong. A request for review may be refused if the candidate cannot support their request.

The Commission recommends that, subject to the agreement of the candidate, where the office holder (in this instance the State Chemist) considers the matter could be resolved they should first seek to engage on an informal basis, before making use of the formal review procedure.

Procedure for Informal Review

- A request for Informal Review must be made within 5 working days of notification of the decision and should normally take place between the candidate and a representative of the State Laboratory who had played a key role in the selection process.
- Where the decision being conveyed relates to an interim stage of a selection process, the request for informal review must be received within 2 working days of the date of receipt of the decision.
- Where a candidate remains dissatisfied following any such informal discussion, he/she may adopt the formal procedures set out below.
- If the candidate wishes the matter to be dealt with by way of a formal review, he/she must do so within 2 working days of the notification of the outcome of the informal review.

- The candidate must address his/her concerns in relation to the process in writing to the State Chemist, outlining the facts that they believe show an action taken or decision reached was wrong.
- A request for review must be made within 10 working days of the notification of the selection decision. Where the decision relates to an interim stage of a selection process, the request for review must be received within 4 working days.
- Any extension of these time limits will only be granted in the most exceptional of circumstances and will be at the sole discretion of the State Chemist.

- The outcome must generally be notified to the candidate within 25 working days of receipt of the request for review.

Complaints Process

A candidate may believe there was a breach of the Commission's Code of Practice by the State Laboratory that may have compromised the integrity of the decision reached in the appointment process. The complaints process enables candidates (or potential candidates) to make a complaint under Section 8 to the Secretary General, Department of Public Expenditure and Reform in the first instance and to the Commission for Public Service Appointments subsequently on appeal if they remain dissatisfied.

Allegations of a breach of the Code of Practice should be addressed in writing, and within a reasonable timeframe, to the State Chemist in the first instance. The complainant must outline the facts that they believe show that the process followed was wrong. The complainant must also identify the aspect of the Code they believe has been infringed and enclose any relevant documentation that may support the allegation. A complaint may be dismissed if they the complainant cannot support their allegations by setting out how the State Laboratory has fallen short of the principles of this Code.

On receipt of a complaint the State Laboratory may determine to engage with the complainant on an informal basis.
